JOURNAL OF IMMUNOLOGICAL METHODS

Contents to volume 173 (1994)

Number 1 – 12 July 1994

Research reports

Escherichia coli heat-stable enterotoxin (STa)-biotin enzyme-linked immunosorbent assay (STa-biotin ELISA)
Y.G.H. De Roquigny and E. Bégaud (New Caledonia) 1

Cloning of an antibody binding DNA sequence: pitfalls of DNA/protein immunoprecipitation reactions
M.N. Weitzmann and N. Savage (South Africa) 7

Synergy test for recognition of epitopes on soluble proteins; its application in the study of CD21 and CD23 antigens and their respective antibodies
N.R. Ling, B. Brown and D. Hardie (UK) 11

A highly sensitive quantitative bioassay for human interleukin-11
Z.-Y. Lu, X.-G. Zhang, Z.-J. Gu, K. Yasukawa, M. Amiot, M. Etrillard, R. Bataille and B. Klein (France, People's Republic of China, Japan) 19

A simple and sensitive method to study effects mediated by soluble lymphokines as demonstrated by the interaction of $CD4^+$ and $CD8^+$ cell subsets during T cell activation
L. Karawajew, B. Micheel, G. Jung, H. Wolf and O. Behrsing (Germany) 27

The use of the RACE method to clone hybridoma cDNA when V region primers fail
F. Ruberti, A. Cattaneo and A. Bradbury (Italy) 33

Flow cytometric measurement of calcium influx in murine T cell hybrids using Fluo-3 and an organic-anion transport inhibitor
E. Baus, J. Urbain, O. Leo and F. Andris (Belgium) 41

Detection of antiphospholipid antibodies by immunostaining on thin layer chromatography plates
M. Sorice, T. Griggi, A. Circella, T. Garofalo, F. D'Agostino, V. Pittoni, G.M. Pontieri, L. Lenti and G. Valesini (Italy) 49

Differentiation of cytotoxicity using target cells labelled with europium and samarium by electroporation
H. Bohlen, O. Manzke, A. Engert, M. Hertel, R. Hippler-Altenburg, V. Diehl and H. Tesch (Germany) 55

Two-dimensional polyacrylamide gel electrophoresis analysis of cryoglobulins and identification of an IgM-associated peptide
J.-D. Tissot, J.A. Schifferli, D.F. Hochstrasser, C. Pasquali, F. Spertini, F. Clément, S. Frutiger, N. Paquet, G.J. Hughes and P. Schneider (Switzerland) 63

Differential interference contrast microscopy combined with immunofluorescence: a new method to phenotype eosinophils in situ
F.L. Jahnsen, G. Haraldsen, J. Rugtveit, T.S. Halstensen and P. Brandtzaeg (Norway) 77

A radioimmunoassay for the quantification of human ubiquitin in biological fluids: application to parasitic and allergic diseases
C. Asseman, V. Pancré, A. Delanoye, A. Capron and C. Auriault (France) 93

Development of enzyme-linked immunosorbent assays (ELISAs) for the detection of monoclonal antibody leakage from immunoaffinity chromatography matrices
D.J. Beer, A.M. Yates and G.W. Jack (UK) 103

ELISA screening of monoclonal antibodies to haptens: influence of the chemical structure of hapten-protein conjugates
N.P. Danilova (Russia) 111

Simultaneous measurement of NK cell cytotoxicity against two target cell lines labelled with fluorescent lanthanide chelates
J. Lövgren and K. Blomberg (Finland) 119

Technical note

Inhibition of class II MHC-peptide complex formation by protease inhibitors
M.N. Liang, S.N. Witt and H.M. McConnell (USA) 127

Corrigendum
Constructing polycompetitor cDNAs for quantitative PCR (J. Immunol. Methods 165 (1993) 37–46)
S.L. Reiner, S. Zheng, D.B. Corry and R.M. Locksley (USA) 133

Announcement 135

Notes to authors 137

Number 2 – 1 August 1994

Research reports
Characterization of a monoclonal antibody produced in an attempt to mimic the active site of HIV aspartyl protease using haptens based on inhibitor models
V. Hanin, J.-M. Campagne, C. Dominice, J.-C. Mani, M.-N. Dufour, P. Jouin and B. Pau (France) 139
A two fusion partner system for raising antibodies against small immunogens expressed in bacteria
A.W. Hey, J.I. Johnsen, B. Johansen and T. Traavik (Norway) 149
Enzyme-linked immunosorbent assay for human pulmonary surfactant protein D
T. Inoue, E. Matsuura, A. Nagata, Y. Ogasawara, A. Hattori, Y. Kuroki, S. Fujimoto and T. Akino (Japan) 157
Manipulating blood T cells and B cells from squirrel monkeys: some technical considerations
O. Garraud, R. Perraut, J. Gysin, C. Behr, P. Dubois, B. Bonnemains, H. Jouin, J.-C. Michel and L. Pereira da Silva (French Guiana, France) 165
A novel assay for typing Rh antigens in blood-stains using a lectin specific to the bisecting *N*-acetyl-D-glucosamine side chain of glycoprotein
K. Matsubara, K.-i. Tanabe, A. Akane, H. Nakamura, S. Takahashi and K. Kimura (Japan) 175
Evaluation of allergenic potency by REAST inhibition. A new tool for the standardization of allergenic extracts
P. Falagiani, G. Mistrello, G. Rapisarda, A. Festa, C. Cislaghi and D. Zanoni (Italy) 181
An affinity column method for determination of the immunoreactivity of ^{131}I-chimeric L6 monoclonal antibody and comparison to in vivo tumor localization
E.M. Jagoda, M.-l.D. Wen, F.J. Yost, G.J. Schreiber and J.-I. Tu (USA) 191
Method for systemic anaphylactic challenge in the rat using subplantar route
S. Levine and A. Saltzman (USA) 203
Ethnic variation in frequency of an allelic polymorphism of human FcγRIIA determined with allele specific oligonucleotide probes
J.M. Osborne, G.W. Chacko, J.T. Brandt and C.L. Anderson (USA) 207
Enumeration of IFN-γ producing lymphocytes by flow cytometry and correlation with quantitative measurement of IFN-γ
A. Vikingsson, K. Pederson and D. Muller (USA) 219
Stimulation of the B9 hybridoma cell line by soluble interleukin-6 receptors
M. Diamant, M.B. Hansen, K. Rieneck, M. Svenson, K. Yasukawa and K. Bendtzen (Denmark, Japan) 229
Conjugation of synthetic peptides to carrier iscoms: factors affecting the immunogenicity of the conjugate
K. Lövgren and M. Larsson (Sweden) 237
Effect of time, temperature and additives on a functional assay of C1 inhibitor
E.W. Nielsen, H.T. Johansen, B. Straume and T.E. Mollnes (Norway) 245
Efficacy of synthetic vaccines in the induction of cytotoxic T lymphocytes Comparison of the costimulating support provided by helper T cells and lipoamino acid
E. Borges, K.-H. Wiesmüller, G. Jung and P. Walden (Germany) 253
A simple fluorometric assay for the determination of cell numbers
C.P. Wan, R.V. Sigh and B.H.S. Lau (USA) 265

Short communication
Pristane retards clearance of particulate materials from the peritoneal cavity of laboratory mice
J.M. Moore and T.V. Rajan (USA) 273

Contents to volume 173 (1994) 279
